Fund aim

The fund aims for steady and consistent growth over the medium to long term (5 to 10 years or more) through a cautious approach to investing. The fund invests in US and international equities, property, fixed interest securities, index-linked securities, cash and other specialist investments. The fund will aim to invest 50-75% in fixed interest securities, index-linked securities and cash, although we may occasionally move outside this range to meet the fund objectives.

Fund manager commentary 31 December 2020

Global GDP growth appeared to normalise somewhat after most major economies posted record growth rates in the third quarter as economic activity rebounded from the lockdown conditions seen earlier in the year. However, a resurgence of COVID-19 cases (particularly in the US and Europe) worsened as autumn and winter took hold, forcing restrictions on consumers and businesses to be re-imposed and causing a slowdown in the global economic recovery.

The UK equity market produced its best quarter of the year as it staged a recovery from oversold levels. The catalyst for the rebound were the announcements of positive news on Covid-19 vaccines, followed by regulatory approval in the UK for two of them in December. UK sentiment also received a boost from the finalising of the EU trade deal on Christmas Eve. US stockmarkets finished the year at record highs. Overall, stockmarkets in Europe, Japan, Emerging Markets & Asia Pacific ex Japan saw healthy gains in the fourth quarter. Traditional safe-haven assets such as government bonds underperformed other asset classes over the fourth quarter.

UK Commercial property delivered positive returns as rental income offset moderate capital declines. The surge in online retailing has intensified the contrasting fortunes of industrials and retail. Industrials (which includes distribution centres) were the standout performer, achieving both rental growth and further yield tightening.

The M&G Treasury & Investment Office (T&IO) outlook is cautiously optimistic although much uncertainty remains in 2021.
